Experience

Incident Manager - Logicalis

ene-jul- 2025

Comprehensive management of technological and functional incidents in critical banking environments. Coordination of multidisciplinary teams to ensure the efficient resolution of incidents in core systems and digital service platforms. Oversight of the full cycle of diagnosis, prioritization, and ticket closure using ITSM tools. Monitoring of SLA compliance, root cause analysis, and proposal of preventive actions aimed at continuous improvement.

Digital Transformation Consultant - KPMG

jul.-dic 2024

Consultant specialized in digital transformation for SMEs under the National Kit Consulting program. Advising on ERP, CRM, BI, and process automation solutions. Development of tailored technology plans, digital maturity assessments, and roadmaps for operational optimization and innovation.

Team Leader and ERP IFS Functional Consultant

Cedar-Bay Vigo(Galicia)

jul 2023- jul 2024

Tled both technical and functional ERP teams. Responsible for task management, incident resolution via Jira, coordination of custom developments with third parties, customer training, and comprehensive technical-functional coordination. Actively participated in functional requirement gathering, business process optimization, and translating user needs into ERP IFS solutions

Chief of Computing and Digital Transformation

Claravision Group (Andalucía)

2022 - jun 2023

Oversaw the group's digital transformation strategy with a strong functional focus. Conducted analysis and redesign of business processes, led ERP migration from Odoo to SAP B1 on HANA, and advised departments on functional use of digital tools. Integrated data capture and imaging systems using Arduino and automated workflows across departments.

SAP Technical and Functional Consultant

Trevenque Group (Madrid)

2020- 2021

Worked as both a technical and functional SAP B1 consultant. Engaged directly with users to collect functional requirements, resolve functional and technical issues, and support SAP B1 migrations. Provided consulting on how to adapt business processes effectively within the SAP environment.

Chief of IT and Computing (IT)

ALABAMA S.A.

2018- 2020

Led the SAP B1 HANA (v9.3 and 10) implementation project. Managed the full cycle including functional analysis, migration planning from Dynamics 365 Business Central, UAT support, and functional validation with business units. Acted as a bridge between functional users and technical teams to ensure successful ERP adoption and process alignment.

Legal Information Systems Manager

Payet, Rey, Cauvi, Pérez Lawyers

2014- 2017

Responsible for the implementation and improvement of Legal Information Systems and jurisprudential databases.

Air Traffic Controller (Ad, Approach and Area)

Peruvian Corporation of Airports

2009-2013

Administration and supervision of aeronautical operations, documentation of processes, application of ICAO aeronautical rules
